

# RAUCHVERGNÜGEN

// GERMAN ENGINEERED CIGARS //

Rauchvergnügen is a new cigar concept from Hamburg, Germany. We create cigars in the same way we Germans engineer the best technology in the world. The result is ultimate precision in aroma, taste, and smoking performance: cigars that are exciting, precise and satisfying down to the smallest details.

The Rauchvergnügen Experience goes far beyond enjoying an excellent cigar. We understand cigars as part of a modern lifestyle, allowing you a very personal experience. Along with our excellent cigars in five different and individual formats we offer you a choice of certified accessories, music, and a continuous social media stream of interesting articles to read. The only things you need to provide are time and tranquility. More about us at [rvgn.de](http://rvgn.de)

Wrapper: Ecuador – Hybrid Seed

Binder: Dominican Republic – Criollo 98

Filler: Dominican Republic, Nicaragua & Pennsylvania, U.S.A – Piloto

The Rauchvergnügen blend provides a medium-strength smoke.

We deliver only finest hand-rolled longfiller cigars, manufactured in the Dominican Republic.

Your first impression of Rauchvergnügen is characterized by a natural, slightly chocolate-smelling wrapper. The cold draw reveals fresh hay and some mint. A Rauchvergnügen smoke combines aromas of cedar wood, alpine herbs, mint and moist forest with notes of peat, coffee, ginger and Sichuan pepper.
